

PEAK
Scoliosis Bracing
System™

Promotes Improved Posture
for Adults with Scoliosis

Introducing the **PEAK** Scoliosis Bracing System

The revolutionary Peak Scoliosis Bracing System™ is an unloader brace designed to improve posture which can help enhance the quality of life. Uniquely designed as the first brace specifically for adult patients, this patented, highly adjustable brace helps promote a natural center of gravity and enhanced mobility. Improving torso alignment can lead to increased vital capacity and ultimately increase a patient's ability to perform activities of daily living. The Peak Scoliosis Bracing System is available in either a one-size adjustable or sized version.

Code L1005 Approved

Designed for Unique Patient Needs

Multiple configuration options give providers the ability to customize a patient's treatment. With a modular design, providers are able to assemble the right brace configuration for each patient and ensure optimal performance. If desired, a Dual Strut Configuration Kit offers additional components that provide increased control.

Multiple Options from One Brace

Dual Strut
Configuration Kit

“THERE AREN'T MANY OPTIONS FOR PEOPLE WITH ADULT SCOLIOSIS, and I have to say the brace gives me a measure of hope. When I feel better after I wear it, it's a whole lot easier to live with scoliosis. There is almost no comparison [to my previous custom brace], it is something I can wear easily, it's something I can take on and off, it's easy to travel with, and because it doesn't need adjustment, it's even better.”

— Kay, Litchfield Park, Arizona

Testimonials were received in various forms through a variety of submission methods. The testimonials reflect the real-life experiences of individuals who used our products. However, individual results may vary. Testimonials are not necessarily representative of what anyone else using our products may experience. The people giving testimonials may have received a free product or a discount for use of their experiences. The testimonials displayed are given verbatim except for grammatical or typing error corrections. Some testimonials may have been edited for clarity or shortened in cases where the original testimonial included additional information of no relevance to the general public.

Promotes Improved Posture and a More Natural Center of Gravity [Ⓐ]

The Peak Scoliosis Bracing System acts as an unloader brace for the spine. Force is applied to the patient by the thoracic and trochanter pads on one side and by the belt on the other side. The applied forces work together to promote a better relationship and reduce body lean.

Anterior & Posterior Tension Straps [Ⓐ]

Adjust to increase force applied by the Universal Strut Assembly.

Ergonomically Designed Molded Pull Tabs

Easy to locate by feel and designed for a comfortable pull.

Adjustable Thoracic Pad

Hinges and flexes for optimal thoracic fit.

Iliac Pad

Prevents brace migration, and provides a landmark for patients to easily don and doff.

Adjustable Trochanter Pad

Pivoting feature maximizes patient fit and comfort with minimal adjustment.

Universal Strut Assembly [Ⓐ]

Chest Strut

When needed, limits rotation and kyphosis.

Comfortable Fabric

Breathable and moisture wicking fabrics ideal for long term wear.

Malleable Aluminum Strut

Customizable by bending or twisting to accommodate varying patient anatomies.

Custom Support [Ⓐ]

When tightened, the back panel naturally conforms to the patient's lordosis to provide true structural support.

Advanced Inelastic Compression [Ⓐ]

Aspen's patented SlickTrack™ Tightening System features an independent upper and lower tightening mechanism, providing direct localized compression where needed to support tight muscles.

True Innovation – The Aspen Advantage

Aspen Medical Products builds the finest spinal braces on the market. With an unparalleled commitment to Research and Development, Aspen has brought to market numerous unique and innovative features, marked by the Aspen Advantage logo.  These features yield real benefits for practitioners and have helped countless patients get back to the activities they care about. Quality products you can count on with features that make a positive difference. That's the Aspen Advantage.
